RE: Jim Coleman Company introduces the **Water Wizard 2.0**

RELEASE DATE: Immediately

Jim Coleman Company is proud to introduce the latest advancement in our growing product line...the **Water Wizard 2.0**.

The **Water Wizard 2.0** has several new and improved features that increase speed and cleaning power:

- Auto Height Adjustment – The **Water Wizard 2.0**'s control system scans and profiles the height of each vehicle and will automatically adjust the wash boom to multiple vehicle heights.
- Wizard Contour System – The wash boom follows the contour of the vehicle, maximizing the scrubbing action of the high-pressure wash. Every vehicle that enters the **Water Wizard 2.0**, regardless of vehicle height, receives the same quality wash.
- Presoak Application – Presoak is now applied through eight wide-angle nozzles. This improvement allows for presoak to be applied to each side and the top of the vehicle simultaneously, increasing the cleaning power of the **Water Wizard 2.0**.
- Hot Wax system– The **Water Wizard 2.0** is now equipped with the option to deliver hot wax. The hot wax protects and seals out water and dirt for that clear coat finish and greatly improved dryer performance.

Photo Attached: (caption if needed) The Water Wizard 2.0 in action as the contouring option profiles the vehicle for more efficient cleaning.

For more information on the **Water Wizard 2.0** or to request literature, please contact us at 800.999.9878 or visit our website at www.jcolemanco.com.
